Introducing the TC51-HC Touch Computer for Healthcare

ZEBRA

DELIVER THE HIGHEST QUALITY CARE WITH EVERYTHING YOUR CLINICIANS WANT, AND EVERYTHING YOUR HOSPITAL NEEDS.

- Perform all tasks including mobile computing, clinical collaboration, and data capture through one device.
- Gain productivity with a device that is contemporary and easy to use as a smartphone, but built with durability and medical grade standards for all-day, every day clinical use.
- Increase patient care with best-in-class hexa-core 64-bit processor to deliver instant care instructions closest to the point of care.
- Reduce shift battery change issues with PowerPrecision+ Replaceable Battery for Best-in-class 14 hour Power and Manageability, Fast recharge and warm swap to maintain connectivity – no reboot.
- Maintain protection against HAIs by cleaning a disinfectant-ready enclosure purpose built to withstand frequent exposure to industry-recommended cleaning solutions.
- Large 5 inch display with capacitive touch panel gives workers easy, familiar and flexible multi-touch operation that works even when wet, with a gloved finger or a stylus.
- Enable staff communication with best-in-class audio quality with 2 microphones, advanced noise canceling algorithms and a front-facing speaker that ensures callers on both ends of every call can hear every word.
- Manage inventory with ultimate 1D/2D scanning performance on nearly any surface.
- Ability to connect all aspects of care including clinicians, patients, and the assets used in their care.

THE TC51-HC —
BETTER CONNECTIONS.
BETTER CARE.
