SOTI

SOTI Snap is a cross-platform, rapid app development solution for business. It enables companies to build the mobile apps they need faster, cheaper and on time.

SOTI Snap does not require coders

Create a mobile app using SOTI Snap — no coding is required. An easy drag and drop interface allows users to pick the app components they need and customize the look and feel.

SOTI Snap creates cross-platform apps automatically

Develop apps for different device makes and models, operating systems and proprietary APIs.

SOTI Snap simplifies workflows

Build more powerful apps by scripting and automating multi-app workflows to improve end-user adoption and productivity.

SOTI Snap eliminates paper-based forms

SOTI Snap creates electronic forms for mobile devices in minutes. It even includes the ability to capture signatures electronically.

SOTI Snap is integrated with the SOTI ONE platform

Leverage SOTI Snap's integration with other SOTI ONE solutions to create unique LOB apps that incorporate device management and help desk capabilities.

SOTI SNAP — **RAPID APP DEVELOPMENT**

SOTI MOBICONTROL — **EMM**

SOTI CENTRAL — **COLLABORATE**

SOTI ASSIST — **HELP DESK**

SOTI CONNECT — **IoT**

SOTI INSIGHT — **BUSINESS INTELLIGENCE**

SOTI ONE — CONNECTING EVERYTHING

Minimum System Requirements

SOTI Snap editor requires a minimum native screen resolution of 1366 x768 pixels, and at least one of the following listed browsers and agent version.

Supported Browsers

- **Apple** ™ Safari (10.1+)
- **Microsoft** ™ Edge (40.15063.0.0+)
- **Mozilla** ™ Firefox (36+)
- **Google** ™ Chrome (40+)

Supported App Operating Systems

- **Apple** ™ iOS (9+)
- **Google** ™ Android (4.2+)

What SOTI Snap Can Do

	Cloud Hosted	Start building apps immediately – no setup required. Use Azure AD to authenticate end users accessing SOTI Snap apps.
	Drag-and-drop Development	Building apps is as easy as dragging and dropping controls on a device-shaped canvas. Quickly prototype and iterate apps and determine their true ROI.
	Build and Deploy Apps Instantly	Respond quickly to changing business requirements for the apps. No need for skilled developers to build custom logic for Android and iOS operating systems. Apps can be deployed immediately.
	Digitize Forms	Electronic forms can be created within minutes. Customer signatures can be captured electronically by having them sign on the mobile device screen directly. Capture feedback using rating scales, drop-down lists and multi-select options.
	Offline Capable	Reduce cellular costs and ensure your apps work even when there is no internet connection available.
	Rich Media Support	Remotely train mobile workers and present information in easy-to-understand formats with the use of images and Youtube videos.
	Automate Data Capture	Capture data within the app by scanning barcodes, taking photos, scanning NFC tags, recording audio, uploading files and automatically capturing geolocation coordinates.
	Multi-App Workflows	Script successive API calls to 3rd party apps to automate multi-app workflows.
	Built-in Integration	Connect SOTI Snap apps to backend systems using custom REST APIs, Webhooks and Zapier integration. Pull useful information from spreadsheets in Google Drive and Office 365. Out-of-the-box integration with SOTI ONE enables the creation of unique LoB apps that incorporate device management and help desk capabilities.
