

BCS 3600^{EX} Ultra-Rugged Handheld Scanners

The only series from non-Ex to Zone 2 and Zone 1

BCS 3600^{ex} Ultra-Rugged Series Handheld Scanners

« Versions in Industry (Non-Ex) Zone 1/Div. 1 and Zone 2/Div. 2, corded and Bluetooth »

- System approach
- Extreme rugged
- Future-proof design
- Global certificates
- Long battery lifetime
- Zone 1

ULTRA-RUGGED DURABILITY IN A CLASS OF ITS OWN.

Your environments couldn't be a tougher place for scanners to survive. Drops to concrete, spills, dust, heat, cold, rain, snow and more – your scanners will see it all. That's why we developed a new class of scanner – ultra-rugged. When it comes to industrial strength for your most challenging environments, the BCS 3600^{ex} series is in a class of its own.

Built to a unique set of specifications, the nearly indestructible BCS 3600^{ex} series is dustproof, spray proof, waterproof and more, designed to handle everything your environment and your workers dish out every day – you won't find a tougher scanner.

THE HIGHEST DROP SPECIFICATION

Your workers spend their day walking and driving material handling vehicles, such as forklifts, on concrete. That's why we engineered the BCS 3600^{ex} series to survive 8 ft./2.4 m to drops to concrete – 23 percent more durable than competitive devices.

THE HIGHEST TUMBLE SPECIFICATION

The BCS 3600^{ex} series works even after 5,000 consecutive tumbles, ensuring reliable operation after the real-world tumbling that typically follows a drop.

DUSTPROOF, SPRAYPROOF AND WATERPROOF

The BCS 3600^{ex} series are the only scanners with two sealing ratings – IP 65 and IP 67 – and the only scanner to offer IP 67. The result is a scanner that is 100 percent dustproof, can handle the force of jetting water and can survive 30 minutes fully submerged in water.

BUILT FOR BLAZING HEAT AND SUB-ZERO TEMPERATURES IN FREEZERS AND OUTDOOR YARDS

Built to withstand extreme heat, cold and humidity, our corded and cordless models can be used anywhere – indoor, outdoor and even in the freezer. (Heated scanner holder accessory required for use in freezers.)

SET YOUR WORKERS FREE WITH THE INDUSTRY'S MOST SUPERIOR CORDLESS TECHNOLOGY

SMART MOUNTING BRACKET

Our Bluetooth models are loaded with industry-leading features that make it easier than ever for your workers to use and manage their cordless scanners.

BLUETOOTH 4.0 FOR LIGHTNING FAST DATA CAPTURE

With the latest version of Bluetooth – Bluetooth Low Energy (BLE), also known as Bluetooth 4.0 – your workers get fast wireless communications and maximum energy efficiency. No sacrificing performance or battery life for cordless freedom.

BATTERY POWER FOR UP TO 70,000 SCANS OR MORE

With more than 50 percent more battery capacity than competitive models, even in the most scan intensive jobs, your workers will have plenty of power for a full shift.

DEPLOY BLUETOOTH WITH ZERO WI-FI NETWORK INTERFERENCE – GUARANTEED

Bluetooth devices can often create interference in Wi-Fi environments, disrupting workflows and impacting crucial data streams from production line equipment. Zebra's Wi-Fi Friendly mode ensures that our BCS 3600^{ex} series Bluetooth models will not interfere with your Wi-Fi infrastructure.

FIRST IN ITS CLASS BATTERY CHARGE GAUGE

The onboard battery charge gauge is similar to that of a mobile phone, making it easy for users to see if the scanner they pick up at the start of the day has a fully charged battery – and easily monitor battery power throughout the day. The result? No more unexpected dead batteries that impact worker productivity.

EASY BLUETOOTH TROUBLESHOOTING

With a Bluetooth status LED right on the scanner, it's easy for users to check and restore lost connectivity, minimizing calls to the help desk.

« Introducing the BARTEC BCS 3600^{ex} Ultra-Rugged Series, a new class of scanner designed to work in the toughest Ex conditions. »

« . . . industrial strength for your most challenging environments now also for hazardous areas! »

In manufacturing plants, warehouse aisles, outdoor yards and seaports, the success of your business rests heavily on the scanners in the hands of your workers. The quality of your products and your ability to deliver the right products to the right customer on time is heavily dependent upon the fast and accurate capture of many barcodes throughout the day.

Wait times between scans, barcodes that can't be read and downtime when a scanner fails create unacceptable delays. Every minute lost reduces productivity, potentially impacting labor costs, order delivery times, profitability, customer satisfaction – and customer retention. You need technology that you can count on, every minute of the day.

Introducing the BARTEC BCS 3600^{ex} Ultra-Rugged Series – a new class of handheld scanner built to deliver the unstoppable performance you need in your most demanding business environments.

With a sealed, sturdy charging station, an intelligent rechargeable battery and the Wi-Fi friendly™ Zebra mode, it provides a complete solution that prevents malfunctions in your WiFi. The BCS 3600^{ex} series from BARTEC gives you the unrivalled performance you need to maximise employee productivity in a potentially explosive atmosphere.

UNIQUE FEATURES

Superior scanning performance on virtually any barcode in practically any condition – period.

An ultra-rugged design for unprecedented durability in ultra-challenging environments.

Unrivalled management tools that reduce management time and costs to a new low.

Available for Zone 1/ Div. 1 and Zone 2/ Div. 2. corded or Bluetooth version.

Part of the Zebra family

Strong replaceable battery

Up to seven devices at one cradle (BT version)
